

RAUNAK RAJ

Full Stack Developer — MERN Stack

+91-9065757719 — rajraunak720@gmail.com — [GitHub](#) — linkedin.com/in/raunak-raj-aab2072a0

Education

Roorkee Institute of Technology, Roorkee

2023 – 2027

B.Tech in Computer Science and Engineering

Projects

JEEVANCARE – Smart Doctor Appointment & Digital Queue System

Live Demo

(React.js, Node.js, Express.js, MongoDB, Socket.IO, JWT, Razorpay, Cloudinary, Tailwind CSS, Material UI, Zod, REST APIs, Nodemailer, Hoppscotch)

- Built a full-stack healthcare platform with JWT auth, role-based access (Patient/Doctor/Admin), and email OTP verification with forgot-password recovery.
- Designed a race-condition-safe digital token queue system with MongoDB unique indexes and real-time updates via Socket.IO rooms.
- Integrated Razorpay payments with server-side signature verification, supporting both online and pay-at-clinic options.
- Implemented doctor search with debounced autocomplete, Cloudinary image uploads, in-app notifications, and an admin panel for verification and analytics.

TIC-TAC-TOE (Full-Stack MERN App)

Live Demo

(React.js, Node.js, Express.js, MongoDB, JWT, Tailwind CSS, REST APIs, Git, GitHub, Vercel, Render, Hoppscotch)

- Implemented JWT-based authentication with bcrypt password hashing and middleware-protected API routes tested via Hoppscotch.
- Built a MongoDB Aggregation Pipeline-powered leaderboard and persisted game history using Mongoose schemas.
- Designed a fully responsive, animated UI with Tailwind CSS, deployed via Vercel (frontend) and Render (backend) with MongoDB Atlas.

Technical Skills

- **Programming Languages:** Java, JavaScript (ES6+), SQL
- **Frontend:** React.js, Redux, HTML5, CSS3, Tailwind CSS, Bootstrap, Responsive Web Design
- **Backend:** Node.js, Express.js, RESTful APIs, EJS, Authentication & Authorization, Middleware, MVC Architecture
- **Databases:** MongoDB, Mongoose, MySQL
- **Tools / Platforms:** Git, GitHub, VS Code, Hoppscotch, npm, Vercel, Terminal, Cloudinary, Multer

Achievements

- Solved **50+ DSA problems** on GeeksforGeeks.
- Built and deployed **3+ full-stack projects** using the MERN stack.
- Participated in **2 Hackathons**, building functional prototypes under time constraints
- Completed comprehensive **MERN Stack coursework** covering frontend, backend, databases, authentication, and deployment.

Coursework

- Computer Networks
- Operating Systems
- Database Management & SQL
